Tour B: The Unforgettable Sunset

This half day tour is almost a must for Bali Visitors. First we visit the principle temple of Mengwi. Taman Ayun built this temple in the early 17th century for the prince of Tabanan. It is surrounded by a large pool which signifies the ocean world. Further on, we give you the opportunity to watch the wild living monkeys in the holy monkey forest, Alas Kedaton. The forest mainly consists of nutmeg trees, a habitat for fruit bats and three big monkey families. Save some of your pictures for the magnificent sunset at the spectacular Tanah Lot Temple, built on the top of a rock in the Indian Ocean, just a few hundred metres from shore.

Tour C: The Eastern Bali Mystic

First, stop at the famous Batik painting in the Batubulan villages. The eastern part of Bali is dominated by the presence of Mount Agung (3142 metres in elevation). This is Bali's most sacred and highest volcano that last erupted in 1963. Built on one of the volcano's slopes, the Besakih temple complex is the pinnacle of sacred to the Balinese Hindu population, also called the "Mother Temple". At Bukit Jambul, we will stop for a refreshing view over the valley, where you will have the opportunity for lunch (optional). On the route through the east of Bali, we take you to discover the traditional village of Penglipuran, where you will see a different social community structure and layout that dates back to the 16th century. On the way back, we will visit Kerta Gosa, or the "Hall of Justice" in Klungkung.

note that a sarong is compulsory at the Besakih Temple

Tour D: The magic of Northern Bali

First, we will take you inland to the most scenic area of Puputan and Antosari. The morning light is ideal for taking pictures of the unique rice terraces. After passing through the florid fields where they also grow coffee, cacao, and many types of fruit, we will descend to the north coast. Lovina Beach, the quiet and black sandy beach will be our next stop. Here, we will have the opportunity for lunch (optional). After a break, we will continue the route winding up the mountain and experiencing magnificent views. Passing by Lake Buyan and Tamblingan will allow us to see the habitat for many birds, trees and flowers, unseen anywhere else on the island. We stop at Bedugul, to visit Lake Bratan with the floating temple of Ulun Danu, which is dedicated to the goddess of water. We will give you the opportunity to purchase local fare when we stop at the local flower and fruit market on the way back.
